Smart Grid Interoperability Panel

Call for Governing Board Candidates

The National Institute of Standards and Technology (NIST) has posted a call for candidates to serve on the Smart Grid Interoperability Panel's governing board. There are four open Board positions at this time which need to be filled.

The four vacancies are as follows:

1. Electric Transportation Industry Stakeholders
2. Municipal Utilities
3. Electricity and Financial Market Traders (Including Aggregators)
4. Venture Capital.

Nominations for candidates for the governing board of the SGIP must be received on or before Dec. 31, 2009. Submissions may be sent by email to the coordinator at sgipgb.coordinator@enernex.com.

Voting will take place in mid-January 2010. An email notice will be sent to Voting Representatives.

To be eligible to vote for the open Board positions in the January election:

1. Your organization must be a Participating Member with an identified Voting Representative by January 1
   - Visit the NIST Smart Grid TWiki for membership forms and the process for becoming a member
   - For a list of current members, visit the SGIP Participating Member page
2. Your organization must have declared itself as a member of one of the four open stakeholder categories
   - You may not change your stakeholder category affiliation in order to vote for one of the Board vacancies. This will be strictly monitored for unusual requests. Membership affiliations will be posted regularly to the public SGIP Participating Member page.
3. Your Voting Representative must be compliant with the SGIP Voting Rules.

The SGIP supports NIST in fulfilling its responsibilities under the 2007 Energy Independence and Security Act. The SGIP identifies, prioritizes and addresses new and emerging requirements for Smart Grid standards. It will further develop the initial *NIST Framework and Roadmap for Smart Grid Interoperability Standards, Release 1.0*, which was released for public review on Sept. 24.

The complete call for candidates is posted at: http://collaborate.nist.gov/twiki-sggrid/bin/view/SmartGrid.SGIP.

Best Regards,
The SGIP Administrator Team
