Smart Grid Interoperability Panel

February 22, 2010

A few reminders

1. **Voting is underway for the Plenary Vice Chair and Secretary positions.** You can find the candidates and their bios by **clicking here**. ***Voting representatives remember to vote by end of today, February 22 at 5p.m. EST***. If you have any problems or concerns, please send an email to the SGIP Administrator.

2. **PAP Participation.** Interested in getting more involved in the SGIP? One of the most important ways to participate is through the Priority Action Plans (PAPs). There are currently 16 PAPs underway. **Learn more on the TWiki.**

3. **Voting is an obligation of SGIP Participating Members**. As noted in the ByLaws, any Participating Member who is (1) absent for two consecutive meetings or (2) does not vote in two consecutive meetings in which voting occurs, will forfeit the privilege of voting on any matter. A record of voting on all measures requiring a vote is being kept by the Administrator.

Best Regards,
Steve Widergren, SGIP Plenary Chair
and the SGIP Administrator Team

March 16-17, 2010
SGIP Face-to-Face in Washington, DC.

Hotel Reservation Deadline:
February 28th

Book your Westfields Marriott hotel room this week to lock in the room rate of $169 a night.

With the overall goal of accelerating the process for developing and harmonizing Smart Grid standards, the SGIP is officially off and running with the establishment of nine internal groups and nearly 1,700 member participants from a wide stakeholder community.

This is truly an unprecedented and rapid activity with a sense of national priority. The SGIP March "Taking Care of Business" Conference will provide an opportunity to organize in a more structured way and explore how these sub-organizations do business:

- What is the mission of each? Primary deliverables?
- What are the organizational interfaces for each sub-organization? How do they all work together?
- What are the mechanisms, processes, liaisons, tools, and standard artifacts?

For details and registration, click here

Note: This conference will focus on organizational and coordination aspects of the working groups and committees. The May F2F meeting will address working group and committee chartered activities similar to the Grid-interop 09 meeting.

EnerNex Corporation serves as the SGIP Administrator under a NIST-awarded contract enabled by the American Recovery and Reinvestment Act. For more information, go to http://collaborate.nist.gov/twiki-sggrid/bin/view/SmartGrid.SGIP.
