

NIST Cloud Computing Security Workgroup (NCC-SWG) Meeting Minutes

Time: 07/13/2011 2:00-3:00 PM EST

Online at http://webconf.soaphub.org/conf/room/cc_security

NCC-SWG's TWIKI page is at <http://collaborate.nist.gov/twiki-cloud-computing/bin/view/CloudComputing/CloudSecurity>

Threads of discussions

1. The work group continued with the *Cloud Computing Security Impediments and Mitigations List, v06*.
 - Ken Stavinocha presented section 3.4, *Need Clear E-discovery Guideline*.
 - a) Providers do not have a standard API for e-discovery, an API is needed
 - b) Problem statement should include discussion of need for data and meta-data
 - c) There is a multi-jurisdiction and possible multinational aspect to this impediment -- some data will not be available
 - d) When evaluating a provider, subscriber's should also consider: i) does provider have an e-discovery tool or API and; ii) does provider have a process for providing data for a single tenant only
 - e) Evaluate providers ability to provide necessary metadata

Action Items

- Prepare the section 4.1 and 4.2 for next week's discussion.
