

August 19, 2010 NIST Smart Grid Privacy Subgroup Meeting Notes

Please send this distribution list any necessary corrections or additions.

Next full group teleconference meeting:

Thursday, August 26, 2010 at 11:00am est

Here are my summary notes from yesterday's meeting:

Reviewed privacy chapter document with all comments/changes merged.

- NOTE: Tanya noticed late yesterday afternoon that Scott had used V9 of our privacy chapter draft (thanks so much, Tanya, for noticing this!!) We had changed it a few times since that version, and it was actually up to V12! Many of his comments were for sections that had been significantly changed from the older V9.
- Note: Not all comments merged gracefully, so I had to manually copy several of them in.
- Reviewed Preface
- Reviewed Abstract
- Anonymity paragraphs: pages 26 & 27 LOOKS OKAY
- Law enforcement references: mention 20 times throughout the document. Any updates from those who attended the FBI event last week? LEAVE ALL
- Section 3.6.4: Accessibility through the Internet
- TO-DO: Christine will send an updated paragraph to the group (not the entire document)
- References to electric vehicles: 12 times throughout LEAVE ALL
- Definitions
- ADD "other" in front of individuals. Footnote the first time that this may not be same person.
- Other sections?
- Customer, consumer, endpoint-user, make all consistent.
- Changed all "customer" to "consumer." (Had 82 instances of "consumer" and 78 instances of "customer" before.)
- Lee: Section on third parties. Not agreement by what people mean by Third Parties. Something to address in coming versions? Put in a footnote about how this is not well defined. DONE: See footnote 81.
- Gail: Section 3.6 the Type I definition; should be clarified.
- Type I definition on page 27.
- Personal information definition in Abstract changed.
- Personal information definition on page 6 changed.
- PII: Only 12 instances of PII were in the document; most in the section discussing applicability of laws that specify specific PII items. Changed it on page 18, 30, and footnote 67.

Thanks,

Rebecca
