

January 27, 2011 NIST Smart Grid Privacy Subgroup Meeting Notes

Minutes by Rebecca Herold

Please send this distribution list any necessary corrections or additions.

Next full group teleconference meeting:

Thursday February 3, 2011 at 11:00am est

Here are my summary notes from the meeting:

1. Team Updates

- Third Party Team: Brent Struthers, Neustar (team lead)
 - Defining third party, and “non-contracted third party”
 - Working on “best practices”
- Privacy Use Cases Team: Christine Hertzog, Smart Grid Library (team lead)
 - Nothing to report
- NSTIC Team: Amanda Stallings, Ohio PUC (team lead). Tanya reported for Amanda
 - Met last week.
 - Meetings on hold now until something more official comes out about pilot program or when the official framework comes out.
- PEV Team: Mike Coop, Hey Coop! (team lead)
 - Yesterday held the first calls of the year.
 - For privacy and for the roaming. No one has been thinking about PEV privacy to date. Also issues about sharing charging stations in a multi-dwelling unit.
 - Had 4 on call for privacy; 9 or 10 for the roaming. Will probably document several use cases to really be able to identify the issues.
 - Will like to create guidelines that will be used by IEEE, the association of auto engineers.
 - Would like to recruit more from the privacy associations. Ask group to get folks involved, especially from the privacy advocacy groups.
 - Have good representation from the EU. Have utilities. Have manufacturers. OH and TX PUCs are also involved. Is reaching out to others.

2. Miscellaneous

- Rebecca: Data Privacy Day is Friday, January 28. A lot is going on with this, including Sandy Basik speaking for an CPON (Carolina Privacy Officials Network) conference.
- Brent: Working with a former SEC privacy officer with kids on helping keep kids' info safe online. Will be speaking at a panel at the NARUC meeting (<http://www.naruc.org/>) at the Renaissance Hotel in DC February 13 – 17. Another smart grid panel takes place there.
- Ontario DPD event at the Board of Trade. Commissioner will release the 3rd paper on smart grid privacy. [NOTE: links to this were distributed to the mail list on February 2.]
- Mark Freund, at PG&E: The Utilities Communications Association has a third party security document draft. See the following link to this draft: [http://collaborate.nist.gov/twiki-
sggrid/pub/SmartGrid/DocumentsforReviewandComment/3PDA_Security_Profile - v0 20 -](http://collaborate.nist.gov/twiki-
sggrid/pub/SmartGrid/DocumentsforReviewandComment/3PDA_Security_Profile_-_v0_20_-)

[20100129.pdf](#). Includes Security Profile for the 3rd Party Data Access. Around 100 pages.
Once published it will be available for everyone.

Thanks,

Rebecca
