20110414 Minutes

1. No follow-up questions from the Nashville F2F presentation
 - a. Presentation: <http://collaborate.nist.gov/twiki-sggrid/pub/SmartGrid/CsCTGArchi/20110330-CSWG-ConceptualSecurityArchitecture-Final.pdf>
 - b. Paper: http://collaborate.nist.gov/twiki-sggrid/pub/SmartGrid/CsCTGArchi/20110330-CSWG_SG_Conceptual_Security_Architecture-Final.pdf
2. A limited number of the SABSA domain task group leads (Markets, Transmission, Cross Cutting, Service Provider, Customer, Generation, Operations, and Distribution) were on the call to provide updates
 - a. Bill Schultz and Tom Markham (Customer domain). There are still questions that need to be answered by Securix to assist in the development of the spreadsheet attribute information, based on an email sent on 02/25 by Tom Markham. Sandy will also follow-up
 - b. Michael Brunetto (Cross-cutting domain). The task is enormous for cross-cutting the group is questioning how to proceed
 - c. The various domain subgroups need to become active again and let us know their status and where they specifically need assistance
3. Everyone needs to review the SGIP SGAC deliverables that will be assisting and providing us background information
 - a. Our source documents from SGAC Conceptual Architecture Working Party twiki: <http://collaborate.nist.gov/twiki-sggrid/bin/view/SmartGrid/SGIPConceptualArchitectureDevelopmentSGAC>
 - b. Updated business services: http://collaborate.nist.gov/twiki-sggrid/pub/SmartGrid/SGIPConceptualArchitectureDevelopmentSGAC/Automation_Services_Post_Interaction_Workshop.xlsx
 - c. Output from the Interactions workshop (329 slides): http://collaborate.nist.gov/twiki-sggrid/pub/SmartGrid/SGIPConceptualArchitectureDevelopmentSGAC/Interactions_March_29.pptx
4. Open discussion:
 - a. Frances brought up the NESCOR project is developing use cases to assist in building a reference security architecture. We will need to do coordination. Elizabeth will initially assist with liaising

20110428 Minutes

1. SABSA update
 - a. Bill Schultz. Reviewed the SGAC business services document with the added automation services. Sandy Bacik needs to take our SABSA attribute file back to the SGAC to see if we are in alignment.
 - b. Various other SABSA questions about the spreadsheet are being worked through in a separate email thread. We are moving forward slowly.
 - c. We need to get the SABSA task groups going again with work and tasks.
2. NISTIR 7628 Architecture chapter updates.
 - a. Elizabeth Sisley is working on the "spaghetti" drawing in updating it with some of the items requested as the NISTIR 7628 was published
 - b. Elizabeth is continuing to review the outstanding comments from the NISTIR 7628 and will provide updates to the group and assist with getting consensus.
3. Everyone needs to review the SGIP SGAC deliverables that will be assisting and providing us background information
 - a. Our source documents from SGAC Conceptual Architecture Working Party twiki: <http://collaborate.nist.gov/twiki-ssgrid/bin/view/SmartGrid/SGIPConceptualArchitectureDevelopmentSGAC>
 - b. Updated business services: http://collaborate.nist.gov/twiki-ssgrid/pub/SmartGrid/SGIPConceptualArchitectureDevelopmentSGAC/Automation_Services_Post_Interaction_Workshop.xlsx
 - c. Output from the Interactions workshop (329 slides): http://collaborate.nist.gov/twiki-ssgrid/pub/SmartGrid/SGIPConceptualArchitectureDevelopmentSGAC/Interactions_March_29.pptx
4. Open discussion:
 - a. Frances brought up the NESCOR project that NESCOR is developing use cases to assist in building a reference security architecture and that we need coordination. Frances reminded us that NESCOR is a funded project and can move the security architecture forward with the project experts.
 1. We need lots of coordination to ensure that there is no duplication of effort.
 2. Elizabeth Sisley is our formal liaison and will be the owner and maintainer of the "spaghetti" drawing to ensure the updates requested by NESCOR are incorporate and we have consensus in the Architecture subgroup. Elizabeth has been a regular within the CSWG Architecture subgroup since it's inception and Erfan Ibrahim of the NESCOR project welcomed Elizabeth to working on the architecture work as a liaison a couple of weeks ago. Elizabeth will update the CSWG Architecture subgroup on a regular basis.

20110512 Minutes

1. Security Architecture: SABSA update.
 - a. The groups will be getting back together to start moving forward in the various domains.
 - b. Sandy needs to finish updating the last document to ensure all of the SABSA domain groups have the current information. This information will be posted on the twiki when completed.
 - c. Within the SABSA groups, we will possibly be looking for replacement SABSA leads, as some of the current SABSA volunteers have been reassigned.
2. NISTIR 7628 Architecture chapter updates.
 - a. Elizabeth Sisley has started the review of the NISTIR 7628 draft 1 and draft 2 comments that were not completed within the "spaghetti" drawing and our Architecture chapter and provided the group an update on the tasks (http://collaborate.nist.gov/twiki-sggrid/pub/SmartGrid/CsCTGArchi/NISTIR_info_with_SGAC_updates.ppt).
 - b. Elizabeth Sisley will coordinate our work with the NESCOR project with Justin Searle also helping coordinate the information from the NESCOR project.
 - c. Elizabeth Sisley started the review of the SGAC actor normalization task to update our NISTIR 7628 chapter and "spaghetti" drawing updates. The SGAC actor normalization work can be found here: <http://collaborate.nist.gov/twiki-sggrid/bin/view/SmartGrid/SGACActorNormalization>.
3. SGAC update.
 - a. Everyone needs to review the SGIP SGAC deliverables that will be assisting and providing us background information.
 - b. SGAC has a conceptual architecture task update overview from 05/09/2011: http://collaborate.nist.gov/twiki-sggrid/pub/SmartGrid/CsCTGArchi/SGAC-Networked_Grid-20110509.pdf. Sandy will attempt to have Doug Houseman give us a presentation in more detail on the SGAC work in a webinar.
 - c. Our source documents from SGAC Conceptual Architecture Working Party twiki: <http://collaborate.nist.gov/twiki-sggrid/bin/view/SmartGrid/SGIPConceptualArchitectureDevelopmentSGAC>.
